1. For large flower, cut two 6" squares from fabric and one 6" square from Soft and Stable.
2. For small flower, cut two 4" squares from fabric and one from Soft and Stable.
3. Cut out templates on next page for large and small flowers.
4. Trace large flower on right side of one 6" x 6" square. Trace small flower on right side of one 4" x 4" square.

5. With wrong sides together, layer fabrics with Soft and Stable in between.  
  
Align on all edges.

6. Stitch around each flower slightly inside the traced line.

7. If desired, echo stitch another line of stitching about 1/4" outside the lines just stitched. TIP: I found it was easier to cut the piece out with this extra line of stitching added.

8. Cut out each flower slightly outside first line of stitching.

9. Layer flowers; stitch together to hold. Add two buttons in the center of the flower, stitching through all layers.

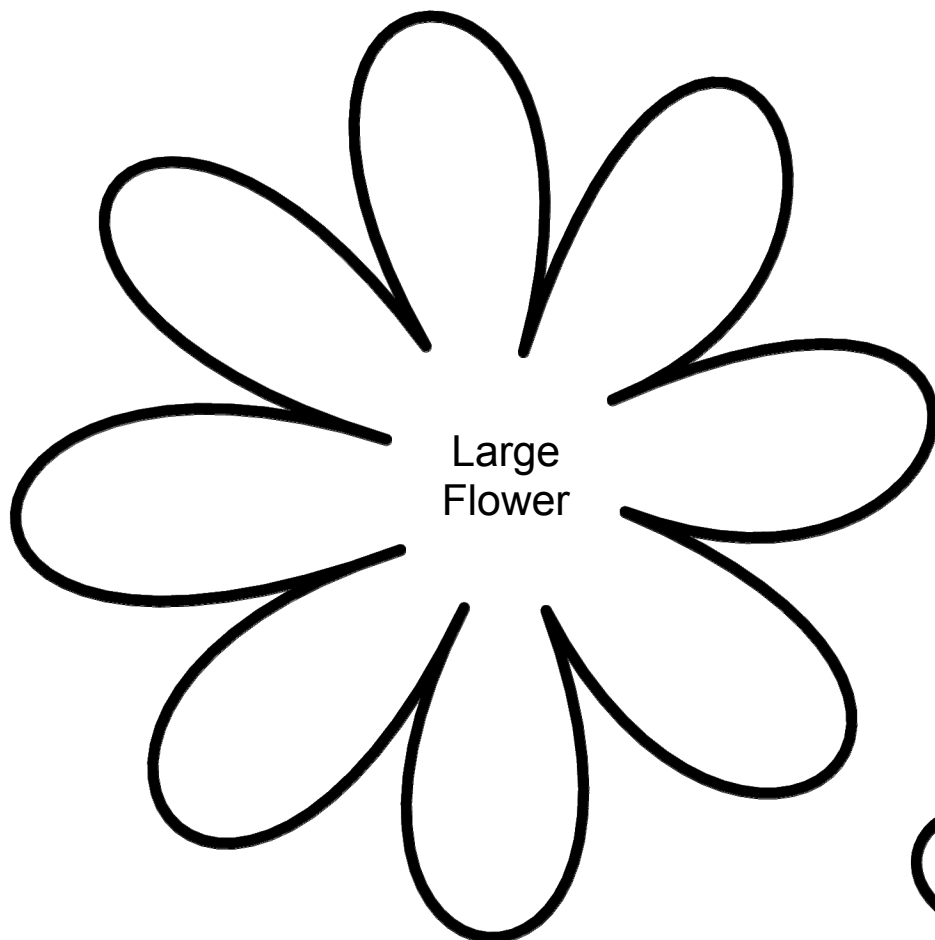

10. Stitch a pin back to the back; pin in place on purse or other desired object.
