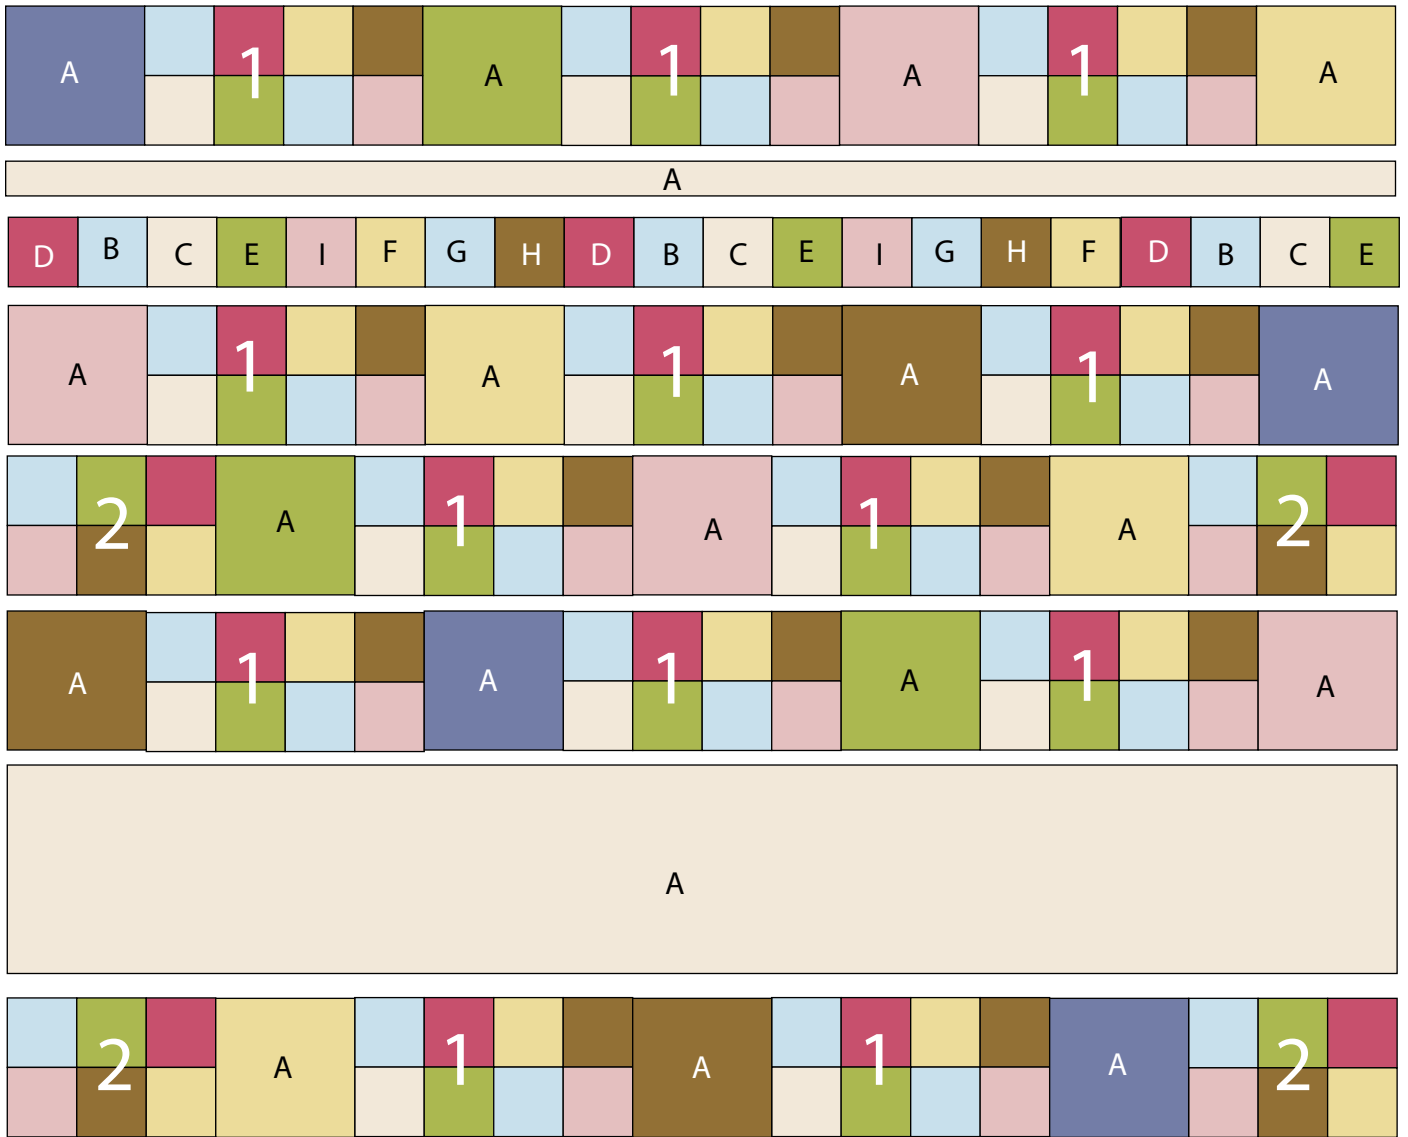

Fig. 3

- Pin the 29 ½" x 40 ½" Fabric J strip to the Fabric J circle along the 40 ½" edge. Adjust the bag body as needed to match the circle diameter. Unpin the bag body panel.
- Align the 29 ½" edges of the bag body, right sides together. Sew the two sides together to create a tube, leaving a 4" opening for turning.
- Pin the bottom edge of the tube to the circle, right sides together. Sew the circle to the tube to make the bag lining.
- Repeat Steps 7-9 with the bag body and the 13" Fabric K circle. Do not leave an opening for turning.
- Mark two vertical line ½" long and ½" apart on the 1" Fabric A strip (Fig. 4). Using your favorite method make a buttonhole on each line to complete the outer bag.
- Place the bag lining together with the outer bag, right sides together, aligning the top raw edges of each and pin together. Sew the two pieces together. Turn the completed bag right side out through the opening in the lining. Stitch the opening closed.
- Stitch in the ditch on either side of the 1" Fabric A strip through both the outer bag and lining on the drawn lines to create a drawstring channel around the bag.
- Thread the drawstring through the channel to complete the bag.
