all about

**108" WIDE**  
wider the better

did you know :

1.1m of 108" wide back is equal to 2.75m of normal 44" wide fabric.  
(1.1m x 2.75m (108")= 3.02 sq m , 2.75m x 1.1m(44") = 3.02 sq m )

YES.....the price per metre is more.....but the price per sq metre is less.....make sense ?  
wide backing is typically upto 108" wide, perfect for covering your quilt backs.

SAVES TIME .....not piecing a back can save you hours in time

SAVES MONEY.....yardage of 108" costs less per sq metre

CLEANER LOOK.....no seams on the back of your quilt

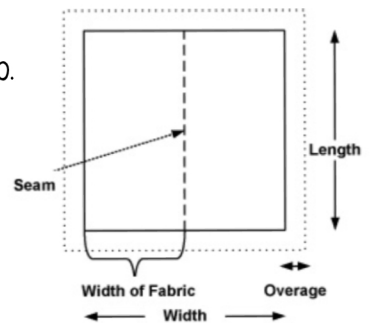

GREAT FOR.....quilt backs, linings, draperies & more

YES.....you can use 108" wideback fabric for front of a quilt .....its a whole cloth quilt.

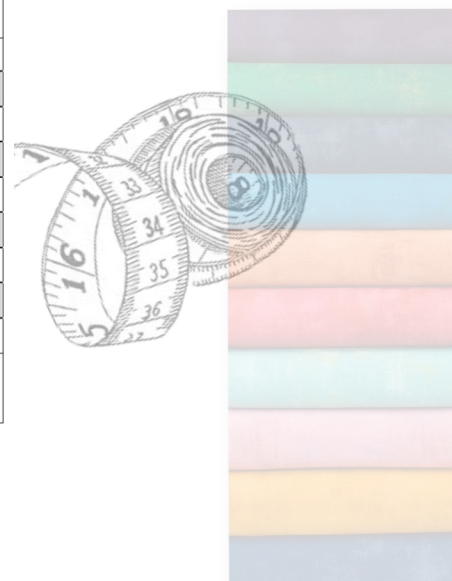

quilt Back :

quilt back must be at least 4" - 6" larger on each side, top & bottom than your quilt top.

If doing premium quilt designs with machine rulers than  
5" - 8" on each side depending on design you choose.
